

Indiana University, Bloomington, Indiana. Faculty position beginning Fall, 2007

As part of a series of new appointments, the Cognitive Science Program at Indiana University seeks a junior level appointment in the general area of intersection of cognitive science and robotics. Applicants with expertise in any aspect of embodied cognitive science are welcome, but we are particularly interested in those with expertise in evolutionary robotics and/or dynamical approaches to cognition. Applicants should have a record that demonstrates an excellent potential in the areas of research and teaching. Successful applicants will take a leadership role in the ongoing development of a new, state-of-the-art robotics laboratory for teaching and research. Indiana University is an equal opportunity/affirmative action employer. Applications from women and minority group members are especially encouraged. Applicants should send full dossiers, including three letters of recommendation. As far as possible, e-mail all materials (ideally in PDF format) to cogsrch@indiana.edu. Materials may also be mailed to Professor Randall Beer, Robotics Search Committee, Cognitive Science Program, Eigenmann 819, 1910 E. 10th St., Bloomington, IN 47406-7512. Applications received by November 1, 2006 are assured full consideration.
